

ALI EDWARDS DESIGN | **SCRAPBOOK ON THE ROAD**

capture life. create art. it is ok. embrace imperfection. don't make it more complicated than it needs to be. tell your story. go with the flow. find your voice.

This project is great for using what you have on hand. I recommend watching the videos and reading through the handout before purchasing any additional products. It's possible that you already have on hand what you need to create your own *Scrapbook On The Road*. Below you will find both a "general" and a "specific" supply list to help you gather materials for your project.

SUGGESTED SUPPLIES

GENERAL SUPPLIES

Chipboard Cover | 2, 5.5 inch x 7 inch or so (size is really up to you). Consider using "left-over" chipboard, random pieces from a minibook, or even cardboard to create your cover. Also, any sort of plain, blank minibook would work great.

Additional Pages | If you're not using a pre-made album you might also want some additional sheets of plain chipboard (thin) to create additional pages.

2-4 Sheets 12x12 Pattern Paper | One of the things I love to do with these albums is use "found" paper while I'm traveling combined with just a few pieces of pattern paper.

2-4, 12x12 Transparencies | I used one for my front and back cover and one inside of pages I created with old fabric patterns. **Hambly** is my main go-to brand. Also check out **Teresa Collins**.

Hambly Clearly Heavy Overlay | I'm listing this specific product under the general supplies because these are really great for a simple page addition to your book (easily cut to size with a trimmer). I used some to create pages in my album with the printable quotes. *They also work well as a cover.*

Fabric Patterns | If you'd like to try the technique of using gel medium + fabric patterns + transparencies to create pages you'll need to pick up some old patterns. You can find them at Goodwill or other second hand stores (*very inexpensive*).

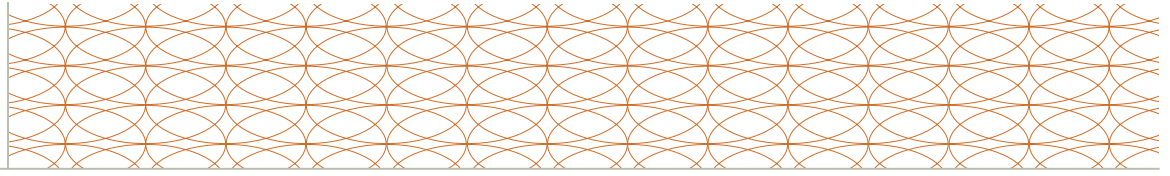

3-5 Small Envelopes | Great for collecting things on your journey.

Shipping Tags | Love these for making pages (see step by step) and for adding to other pages for journaling.

Embellishments | Just a few. I especially love little things like **mini-paperclips**.
